Application for Time Extension

As part of the Standards and Conditions of a Mills Act Contract, property owners must submit an update every two years for the first ten (10) years of the contract and then every five (5) years thereafter. Failure to provide an update or to complete the conditions in the time allotted may result in the cancellation of the contract.

Provide this completed application, a statement requesting the reason for the time extension and the applicable fee. Time extensions can be granted by the Historic Preservation Commission pending approval of an application.
