Hi Alice,

I'm very concerned that masks aren't required and worn in Monrovia.

I hope at the next council meeting this can be addressed.

Sincerely,  
Diane Scroggins

Good Evening Mayor Adams, Mayor Pro Tem Crudgington and Councilmembers:

On Monday evening, some friends and I were sitting at a table on the sidewalk outside a local restaurant on Myrtle. A car turned into a parking spot at such a high speed, that everyone at our table jumped up. There was a scream from our table, as well as the neighboring table. Luckily, the car stopped in time and the young ladies were very apologetic. Since the pandemic has allowed for seating closer to the curb, there have been a lot of close calls. I have noticed people driving at higher than intelligent speeds and making very fast u-turns into parking spaces. The u-turns are especially dangerous if someone is in the neighboring spot and trying to enter or exit their car. My hope is that the council can review the current speed limit and discuss lowering it while the current outdoor dining model is in effect. I will also take this opportunity to request that street signage is added, to reinforce U-turns are prohibited.

Thank you for your consideration.

Best regards,

Shawn Spencer

Good Evening Mayor Adams and Councilmembers:

I am delighted to hear that LA County COVID numbers are going down. While this is good news, there is still risk for those who have not been vaccinated. I am writing tonight to request that the city enforce a mask mandate. I am relieved on behalf of the business owners for the opportunity to open up again. While this great news for our economy, I don't think we want Monrovia to be the epicenter for another surge. Seeing Myrtle street the past few days I have seen crowded restaurants, and crowded tables. Just yesterday, it was 3:30 pm and I noticed a line out of most restaurants and people not socially distanced. At minimum if we enforced a mask mandate we could slow the spread. As anyone who has had COVID knows, this is a terrible disease and the risk of catching it can be minimized by enforcing proper safety precautions.

Thank you,

Melissa Taylor
