Across Southern California, many arrested during protests unlikely to face any charges

- If a citation were to be given to a person who is not wearing a face covering, these charges would be sent to the LA County District Attorney's Office. Given the current circumstances, it is most likely that the DA's office will not prosecute these citations.
- As an example, citations given to protesters for failure to disperse, curfews and other code violations were mostly dismissed.

The City of Monrovia continues to focus our efforts on education and compliance. If the need arises, we'll continue working in partnership with the Los Angeles County Department of Public Health to ensure our community understands the face covering requirements.

Between October 2nd and February 20th, 16 citations have been issued to 9 different Monrovia businesses.
