ADMINISTRATIVE REPORTS:

AR-1 Measure K Financial Policy

City Manager Dylan Feik provided a brief review of the Measure K Financial Policy, which was originally drafted from feedback received from City Council as a result of the Measure K outreach efforts. The draft policy was first presented to the Measure K Citizen Advisory Committee during the March 29,

CC-1

2022, meeting. Since then, the policy was updated to incorporate Committee member feedback. The current draft of the policy incorporated six principles, in no hierarchical order, and was meant as a guiding framework. It was anticipated that the redrafted policy would be presented to City Council before the end of the year. As part of the discussion during this presentation, the Committee also asked what is needed for the City to receive a AAA bond rating. It was suggested that one of the main factors in obtaining a AAA rating is a higher percentage of reserve funds as part of the overall budget, and Council would need to consider the advantages and disadvantages of building a significant reserve balance rather than addressing other priorities or needs.

It was moved by Committee Member Vachani, seconded by Committee Member Corser, to receive and file the report. The motion carried unanimously.

AR-2 Measure K Financial Update

Administrative Services Director Buffy Bullis provided a financial update on Measure K funds. Ms. Bullis noted that the City has not closed its books for Fiscal Year 2021-22 and the figures presented were based on pre-audited numbers. The City would begin its audit in October 2022, and would complete the Annual Comprehensive Financial Report in December 2022. Ms. Bullis presented a financial summary of Measure K Revenues and Expenditures, beginning with Fiscal Year 2019-20 Actuals to FY 2022-23 Budget. She also provided a detailed listing of Measure K expenditures as of October 2022, and this list included some one-time projects, as well as transfers to other funds.

Part of this report included status updates on the following projects: Munis, Mitel Phone Improvements, and the Wireless Access Points in Canyon Park. The Committee requested a specific link on the City website related to Measure K that is easy to find and navigate, and contains relevant information including the meeting minutes.

It was moved by Committee Member Vachani, seconded by Committee Member Corser to receive and file the report. The motion carried unanimously.

REPORTS FROM STAFF: None.
