Hello,

I have a couple of comments about the road widening project where the City of Bradbury proposes to destroy the oaks in the habitat corridor. First, as I understand it, half of the roadway in question belongs to Monrovia, and half to Bradbury. Why could the City of Monrovia prohibit large construction trucks on their side of the road?

Second, Lemon Street should be used as an exit from Bradbury Estates.

Finally, The City of Bradbury will be creating a new safety problem by widening the road. That potentially means more accidents on the Monrovia side of the road as well. This project is not very well thought out as far as safety goes. We want less traffic, not more.

Thank you.
